PROJECTS

Coindive (12/2023 - 02/2024)

- Created flutter app that includes: Real-time updates on cryptocurrency prices, Historical price charts and market trends and Option to set price alerts for specific cryptocurrencies.

Exam Tonight WebView (07/2023 - 07/2023)

- Designed and implemented a Flutter WebView app to help users access study materials and resources conveniently on their own cell phone through this app.

EMart (06/2023 - 07/2023)

- Built an e-commerce Flutter app with Firebase integration for efficient database management, enabling seamless online shopping.

Daily Task Manager (05/2023 - 05/2023)

- Designed and implemented a daily task manager Flutter app with SQLite integration for efficient task tracking and management.

Background Remover App (04/2023 - 05/2023)

- Created a Flutter app that effortlessly removes backgrounds from images using a third-party API, maintaining image quality intact.

Instant Cash Transfer (ICT) (08/2022 - 05/2023)

- The Instant Cash Transfer App is a Java-based mobile application developed as part of my final year project. The app aims to provide users with a convenient and secure platform for instantly transferring money between individuals, eliminating the need for traditional banking methods and reducing transactional delays.

CERTIFICATES

Web Development (10/2021 - 01/2022)

Graphic Design (10/2021 - 01/2022)
